Exclusive benefits

In addition to the wealth of learning resources and events available to our entire global community of users, IBM Quantum Network members get access to the following benefits:

Learn

Accelerate your path to quantum utility with educational content and updates.
- Additional courses in IBM Quantum Learning
- First-look updates for upcoming releases
- Regular quantum newsletters
- Event replays

Connect

Engage and collaborate with other members that are shaping the future of quantum computing.
- A dedicated Slack workspace
- Virtual workshops on special topics
- Special events and networking opportunities

Build

Advance your quantum projects with guidance from experts.
- Technical code reviews
- Ask-me-anything slack sessions
- Quarterly Q&As with IBM experts
- Virtual office hours

Access

Run quantum workloads on the most advanced IBM quantum technology.
- Access to advanced software features
- Access to 100+ qubit utility-scale computers
