SAP HANA and IBM Power Systems: Better together

Helping enterprises accelerate transformation

Reduce server footprint: Up to **16 SAP HANA instances** on a single IBM® Power Systems™ server[1]

French systems integrator and SAP HANA cloud service provider D.FI: **20% reduction** in total costs[2]

Argentinian natural gas distributer Ecogas: **73% acceleration** in customer payment processing[3]

North American furniture manufacturer South Shore Furniture: **8x faster** transaction processing[4]

Protect your data and mission-critical workloads.

Up to **99.999%** uptime[5] on IBM Power Systems

Ranked **No. 1** in every major reliability category by ITIC[6]

Security built into all layers of the stack—processor, systems, firmware, OS and hypervisor

Gain the flexibility to help address current and future demands.

Cloud-ready

Mix-and-match server environments

Capacity on demand

Ready for advanced analytics, AI, deep learning workloads
