

IBM Cloud Pak for Integration on AWS

The trusted integration solution ready to buy and deploy on your chosen AWS environment.

Solve your key business problems using IBM Cloud Pak for Integration

API-led Integration

I need to access and share information quickly and simply.

Deploy your integrations where you deploy your applications.

Buy your integrations where you buy your applications.

Event-led Integration

I need to discover what is happening in my business and respond quickly.

Buy CP4I on AWS Marketplace [Click here](#)

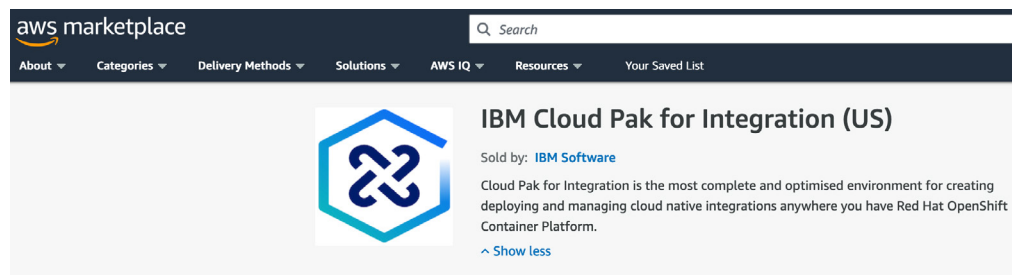

Deploy CP4I on AWS from the AWS Marketplace [Click here](#)

Messaging & Connectivity

I need to securely and reliably access and update systems of record at scale.

Cloud Pak for Integration runs where your business runs

Now it's even easier for you to purchase and deploy Cloud Pak for Integration when your business runs on AWS.

Use your AWS committed spend to buy entitlement to Cloud Pak for Integration.

Choose public offer from the Marketplace, or contact IBM for a private offer.
