IBM Spectrum Copy Data Management (CDM) 2.2.12.0 Release Notes

This document contains the latest information for the current release of IBM Spectrum Copy Data Management (CDM). The content highlights significant fixes or known issues in this release.

Release 2.2.12.0 (Release date: 11/20/2020)

Issue ID	Affects	Status	Description
ECC-14185	IBM Storage	IMPROVEMENT	SSH connections are now reused on IBM SVC API calls.
ECC-13344	IBM Storage	IMPROVEMENT	Database disk information is now stored in the correct property IDs.
ECSUST-2080	Maintenance	IMPROVEMENT	Disables the deletion of restore job if the job is in a resource active state.
ECC-14112	Caché Restore	RESOLVED	Resolved the issue where an instant disk restore of virtual Caché fails due to null pointer exception.
ECSUST-2165	NetApp Storage	RESOLVED	Fixed an issue that resulted in backups failing on storage using 7-Mode.
ECC-14132	NetApp Storage	RESOLVED	Resolved issue where FlexGroup volume backup on the remote site when using SnapVault or SnapMirror did not expire properly.
ECC-14154	SAP HANA Restore	RESOLVED	Fixed the issue where revert fails due to the virtual backing info not being saved in the session.
ECC-13586	Report	RESOLVED	Storage reports now display the correct usage percentage.
ECC-14014	VM Backup	RESOLVED	Fixed an issue where global mirror backup with enabled incremental flashcopy completes with a partial status.
ECSUST-2182	VM Restore	RESOLVED	Added the VC redistributable package for Microsoft Windows virtual machines to allow for the reassigning of the IP address after VM restore.
ECSUST-2042	VM Restore	RESOLVED	Instant disk restore now displays the correct disk label.
ECC-14285	Oracle Restore	KNOWN	Instant database restores of Oracle ACFS data hangs when utilizing iSCSI protocol.
ECC-14197	Oracle Restore	KNOWN	Oracle ACFS RAC restores fail when restoring from an incremental flashcopy.
ECSUST-2183	Oracle Restore	KNOWN	Cleanup of Oracle restore job leaves behind the disk on AIX server.
ECC-13852	SAP HANA Backup	KNOWN	Backup fails to notify "log backup task failed" in the job log.
ECC-13895	SAP HANA Backup	KNOWN	Log backups are not purged correctly as specified by the retention setting.
