Release Notes

Welcome to the October 2019 release of IBM® TRIRIGA® 10.6.0.5.

These release notes include the following:

- Instructions for downloading the updated language packs
- Pointers to where you can access instructions for installing the language packs

Notes - This release/fix pack/OM package does not include changes to IBM TRIRIGA Lease Accounting calculation models that could affect previously published financial records and how future records are calculated.

If updates or corrections are required for this document, a new version will be posted on the [Release Notes](#) page of the DeveloperWorks wiki.

What's New

IBM TRIRIGA 10.6.0.5 includes updated language packs that contain translated messages for the UX Perceptive apps of Work Planner and Stacking.

Prerequisites and Supported Products

To install this fix pack, you must have IBM TRIRIGA Application Platform 3.6.0.5 and IBM TRIRIGA 10.6.0.2 installed. Installation of IBM TRIRIGA 10.6.0.3 and 10.6.0.4 is not required but is supported.

Installing the IBM TRIRIGA 10.6.0.5 Object Migration Package

You must install the IBM TRIRIGA 10.6.0.5 object migration package on an existing TRIRIGA 10.6.0.2 installation. Optionally, you may also have 10.6.0.3 or 10.6.0.4 as part of that installation. Additionally, you must have IBM TRIRIGA Application Platform 3.6.0.5 or later installed.

Caution - The fix pack will overwrite existing objects and any customizations made to those objects. Review the list of objects using the Object Migration tool before you import the package.

Procedure

Follow these steps to apply the fix pack:

1. Browse to the `10.6.0-TIV-PDM-FP005.tar` file downloaded from Fix Central.
2. Untar the file to extract the OM package ZIP file (`TRIRIGA_10_6_0_5.zip`).
3. In the Administrator Console, ensure the Object Migration Agent and the Object Publish Agent are running.
4. Log in to TRIRIGA as an administrator.
5. Go to Tools > Object Migration.
6. Click New Import Package.
7. Browse for the `TRIRIGA_10_6_0_5.zip` file extracted in Step 2 and click **OK**.

8. Use the Validate action to verify that the objects can be imported successfully.
9. Use the Import action to initiate the import process. A notification is sent to the user when the import process is complete.

What to do next

After the import process is complete, log into TRIRIGA and check the application version in **Tools > System Setup > System > Application Version**. Verify that the fix pack you just imported is listed.

Importing the translated language packs

The language packs .zip file, `tririga_10605_360_20191015_language_packs.zip`, is included in the `10.6.0-TIV-PDM-FP005.tar` file that was downloaded from Fix Central.

If your company is only using US English, then you do not need to do anything with the language packs.

Follow these steps if your company plans to globalize these applications:

1. Replace all files in your server's `/userfiles/LanguagePacks` folder with the `tririga_10605_360_20191015_language_packs.zip` language packs file delivered with this fix pack.
2. For every language in your environment, import the language packs from the `tririga_10605_360_20191015_language_packs.zip` language packs file delivered with this fix pack.

For information about either step, refer to the IBM TRIRIGA Application Platform Globalization User Guide, which can be found at

Notices

This information was developed for products and services offered in the U.S.A.

IBM may not offer the products, services, or features discussed in this document in other countries. Consult your local IBM representative for information on the products and services currently available in your area. Any reference to an IBM product, program, or service is not intended to state or imply that only that IBM product, program, or service may be used. Any functionally equivalent product, program, or service that does not infringe any IBM intellectual property right may be used instead. However, it is the user's responsibility to evaluate and verify the operation of any non-IBM product, program, or service.

IBM may have patents or pending patent applications covering subject matter described in this document. The furnishing of this document does not grant you any license to these patents. You can send license inquiries, in writing, to:

IBM Director of Licensing
IBM Corporation
North Castle Drive
Armonk, NY 10504-1785
U.S.A.

For license inquiries regarding double-byte character set (DBCS) information, contact the IBM Intellectual Property Department in your country or send inquiries, in writing, to:

Tokyo 103-8510, Japan

The following paragraph does not apply to the United Kingdom or any other country where such provisions are inconsistent with local law:

INTERNATIONAL BUSINESS MACHINES CORPORATION PROVIDES THIS PUBLICATION "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. Some states do not allow disclaimer of express or implied warranties in certain transactions, therefore, this statement may not apply to you.

This information could include technical inaccuracies or typographical errors. Changes are periodically made to the information herein; these changes will be incorporated in new editions of the publication. IBM may make improvements and/or changes in the product(s) and/or the program(s) described in this publication at any time without notice.

Any references in this information to non-IBM Web sites are provided for convenience only and do not in any manner serve as an endorsement of those Web sites. The materials at those Web sites are not part of the materials for this IBM product and use of those Web sites is at your own risk.

IBM may use or distribute any of the information you supply in any way it believes appropriate without incurring any obligation to you.

Licensees of this program who wish to have information about it for the purpose of enabling: (i) the exchange of information between independently created programs and other programs (including this one) and (ii) the mutual use of the information which has been exchanged, should contact:

IBM Corporation
224A/101

11400 Burnet Road
Austin, TX 78758
U.S.A.

Such information may be available, subject to appropriate terms and conditions, including in some cases, payment of a fee.

The licensed program described in this document and all licensed material available for it are provided by IBM under terms of the IBM Customer Agreement, IBM International Program License Agreement or any equivalent agreement between us.

Information concerning non-IBM products was obtained from the suppliers of those products, their published announcements or other publicly available sources. IBM has not tested those products and cannot confirm the accuracy of performance, compatibility or any other claims related to non-IBM products. Questions on the capabilities of non-IBM products should be addressed to the suppliers of those products.

All statements regarding IBM's future direction or intent are subject to change or withdrawal without notice, and represent goals and objectives only.

This information contains examples of data and reports used in daily business operations. To illustrate them as completely as possible, the examples include the names of individuals, companies, brands, and products. All of these names are fictitious and any similarity to the names and addresses used by an actual business enterprise is entirely coincidental.

Privacy Policy Considerations

IBM Software products, including software as service solutions, (“Software Offerings”) may use cookies or other technologies to collect product usage information, to help improve the end user experience, to tailor interactions with the end user or for other purposes. In many cases no personally identifiable information is collected by the Software Offerings. Some of our Software Offerings can help enable you to collect personally identifiable information. If this Software Offering uses cookies to collect personally identifiable information, specific information about this offering’s use of cookies is set forth below.

This Software Offering does not use cookies or other technologies to collect personally identifiable information.

If the configurations deployed for this Software Offering provide you as customer the ability to collect personally identifiable information from end users via cookies and other technologies, you should seek your own legal advice about any laws applicable to such data collection, including any requirements for notice and consent.

For more information about the use of various technologies, including cookies, for these purposes, see IBM’s Privacy Policy at www.ibm.com/privacy and IBM’s Online Privacy Statement at www.ibm.com/privacy/details in the section entitled “Cookies, Web Beacons and Other Technologies” and the “IBM Software Products and Software-as-a-Service Privacy Statement” at www.ibm.com/software/info/product-privacy/.
