IBM TRIRIGA Anywhere 10.4.3 Compatibility Matrix

The information in this IBM TRIRIGA Anywhere 10.4.3 Compatibility Matrix is current as of July 28, 2017. The IBM TRIRIGA Anywhere 10.4.3 Compatibility Matrix provides a list of servers, third party servers, third party components and operating systems (collectively "Environments") with which the IBM TRIRIGA Anywhere is currently certified as of the date hereof. New implementations are advised to install the most current versions of the supported third party software. If you are on an IBM TRIRIGA Anywhere version where a required third party product is not currently supported, you will need to upgrade to a more current IBM TRIRIGA Anywhere release in order to be in compliance with the supported Environments. This document is not a contract. This document, all information contained herein, and IBM's products and services are subject to change at any time with or without notice in IBM's sole and absolute discretion. Without limiting the foregoing, IBM reserves the right to change its support policies and to certify its IBM TRIRIGA Anywhere on new or different Environments and to de-certify its platform on any Environments. The information contained in this document does not affect or change IBM product specifications or warranties. Nothing in this document shall operate as an express or implied license or indemnity under the intellectual property rights of IBM or third parties. THE INFORMATION CONTAINED IN THIS DOCUMENT IS PROVIDED ON AN "AS IS" BASIS. In no event will IBM be liable for damages arising directly or indirectly from any use of the information contained in this document or from any changes to the information contained in this document.

For a complete list of supported versions of the IBM TRIRIGA Application Platform and IBM TRIRIGA Applications, see IBM developerWorks.

See IBM developerWorks for the most current version of the IBM TRIRIGA Application Platform Compatibility Matrix.
