Download location

Download IBM Content Collector, Version 4.0.1.8 Interim Fix 003, from the following location:

http://www.ibm.com/support/docview.wss?uid=ibm10716077

The following deliverables are available for download.

Product/Component name	Platform	File name
IBM Content Collector V4.0.1.8 IF003 readme	N/A	4.0.1.8-IBM-ICC-IF003.pdf
IBM Content Collector V4.0.1.8 IF003 Server	Windows	4.0.1.8-IBM-ICC-Server-IF003.zip

Prerequisites and co-requisites

The server package of IBM Content Collector V4.0.1.8 Interim Fix 003 requires the IBM Content Collector V4.0.1.8 server package as a prerequisite.

For information about hardware and software compatibility, see the detailed system requirements document at http://www-01.ibm.com/support/docview.wss?uid=swg27042658

Installation information

Steps to install this fix:

1. Extract the file **4.0.1.8-IBM-ICC-Server-IF003.zip** to a temporary directory.
2. Stop the IBM Content Collector Task Routing Engine Service and IBM Content Collector Web Application service.
3. Run the Interim Fix installer (**4.0.1.8-IBM-ICC-Server-IF003**.exe).
4. Following files should be updated/added after the successful installation

   Files updated:

   a. **afu-expirationmgr.jar** – (<ICC Installation Folder>\tools\ExpirationManager\)

   b. **afu-P8ExpirationMgr-config-sample.properties** - (<ICC Installation Folder>\tools\ExpirationManager\)

   c. **afu-CM8ExpirationMgr-config-sample.properties** – (<ICC Installation Folder>\tools\ExpirationManager\)

   Files added:

   a. **ICC_ReplicaID_Generation_Tool.nsf** (<ICC Installation Folder>\tools\ExpirationManager\Notes_addon)

   b. **Selected_Users.txt** (<ICC Installation Folder>\tools\ExpirationManager\Notes_addon)
5. Start the IBM Content Collector Task Routing Engine Service and IBM Content Collector Web Application service.

Removing the Interim Fix:

1. Stop the IBM Content Collector Task Routing Engine Service and IBM Content Collector Web Application service.
2. Go to the following folder in installation directory and run the rollback.cmd file:

   For example: "**<ICC Installation Folder>\interimFixes\4.0.1.8-IF003_rollback**"
3. Start the IBM Content Collector Task Routing Engine Service and IBM Content Collector Web Application service.

Fixes and changes made in version 4.0.1.8 Interim Fix 003

New Features

Expiration Manager User Deletion:

The expiration manager tool now supports the deletion of archived emails of a particular user when the employee leaves an organization/community. Also, in European General Data Protection Rule (GDPR), every EU citizen can request that their personal information must be deleted, which is now taken care by the tool. The user-related email deletion must be an extension of the expiration manager, to leverage existing plausibility and consistency checks.

Documentation

The Expiration Manager documentation is updated and available on the web at:

https://www.ibm.com/support/knowledgecenter/SSAE9L_4.0.1/com.ibm.content.collector.doc_kc/retention/c_afu_expirationmgr.html

The Expiration Manager user deletion newly added properties documentation is updated and available on the web at:

https://www.ibm.com/support/knowledgecenter/SSAE9L_4.0.1/com.ibm.content.collector.doc_kc/retention/r_afu_expirationmgr_properties.html
