IBM zERT Network Analyzer passphrase and password management support

The IBM zERT Network Analyzer with APAR PH43118 for z/OS V2R3 supports the use of passphrases up to 100 characters to connect to the Db2 for z/OS database. The IBM zERT Network Analyzer includes additional enhancements in the Database Settings panel to clear existing database credentials to allow for easier switching to a different database user ID.

Using IBM zERT Network Analyzer passphrase and password management support

To use IBM zERT Network Analyzer passphrase and password management support, perform the tasks in *Table 1. IBM zERT Network Analyzer passphrase and password management support*.

Table 1. IBM zERT Network Analyzer passphrase and password management support
