## Migration planning sheet

---

Use the migration planning sheet to gather the on-premises environment configuration data that you must have available when you migrate. After you generate the CR, you must check that all the values listed in the migration planning sheet are correctly filled in.

On-premises configuration details	Values
Database server name/IP	
GCD details: <ol style="list-style-type: none"> <li>1. Database name</li> <li>2. Non-XA data source name</li> <li>3. XA data source name</li> <li>4. Database username</li> <li>5. Database password</li> </ol>	
IBM Content Navigator database details: <ol style="list-style-type: none"> <li>1. Database name</li> <li>2. Non-XA data source name</li> <li>3. XA data source name</li> <li>4. Database username</li> <li>5. Database password</li> <li>6. IBM Content Navigator schema name</li> <li>7. IBM Content Navigator table space name</li> </ol>	
Design Object Store database details: <ol style="list-style-type: none"> <li>1. Database name</li> <li>2. Non-XA data source name</li> <li>3. XA data source name</li> <li>4. Database username</li> <li>5. Database password</li> </ol>	
Target Object Store database details: <ol style="list-style-type: none"> <li>1. Database name</li> <li>2. Non-XA data source name</li> <li>3. XA data source name</li> <li>4. Database username</li> <li>5. Database password</li> </ol>	

File Storage Target Object Store:

1. Database name
2. Non-XA data source name
3. XA data source name
4. Database username
5. Database password
6. Backup of the file storage area files

LDAP Configuration details of on-premises

Administrator user

Administrator Group

Connection Point names: (For Target Object Stores only)

IBM Case Manager Custom plug-in file and file name

FileNet P8 domain name

DOCS Object Store database details:

1. Database name
2. Non-XA data source name
3. XA data source name
4. Database username
5. Database password

AEOS Object Store database details:

1. Database name
2. Non-XA data source name
3. XA data source name
4. Database username
5. Database password
