Migration planning sheet

Use the migration planning sheet to gather the on-premises environment configuration data that you must have available when you migrate. After you generate the CR, you must check that all the values listed in the migration planning sheet are correctly filled in.

On-premises configuration details	Values
GCD details: <ol style="list-style-type: none"> 1. Database name 2. Non-XA data source name 3. XA data source name 4. Database username 5. Database password 	
IBM Content Navigator database details: <ol style="list-style-type: none"> 1. Database name 2. Non-XA data source name 3. XA data source name 4. Database username 5. Database password 6. IBM Content Navigator schema name 7. IBM Content Navigator table space name 	
Design Object Store database details: <ol style="list-style-type: none"> 1. Database name 2. Non-XA data source name 3. XA data source name 4. Database username 5. Database password 	
Target Object Store database details: <ol style="list-style-type: none"> 1. Database name 2. Non-XA data source name 3. XA data source name 4. Database username 5. Database password 	
File Storage Target Object Store: <ol style="list-style-type: none"> 1. Database name 2. Non-XA data source name 3. XA data source name 4. Database username 5. Database password 6. Backup of the file storage area files
